DETAILED ACTION

Allowable Subject Matter

1. Claims 2, 5, and 7-10 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the device of claim 2, in particular the amended limitation that the external wiring comprises the underlying conductive layer formed directly on the transparent conductive layer. Claim 2 is therefore allowed, as are its dependent claims 8 and 10. Similarly, the prior art does not disclose the method of claim 5, in particular the amended limitation that there is a step of forming a transparent conductive layer directly on the underlying conductive layer in a second region out of the material-sealed region. Claim 5 is therefore allowed, as are its dependent claims 7 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent No. 5,187,604 to *Taniguchi et al.* discloses a laminated structure comprising three layers d1, d2, and d3 in the sealed region and d1 formed directly on d3 in the outside the sealed region; however, d2 is aluminum-based rather than silver-based, d1 is chromium or a silicide rather than a metal oxide, and d3 is not thinner than d1.
